WALLE SAILS FOR SOUND & SAFETY

PALMETTO BREEZE Charleston Harbor Sail 5-7pm

What would you do if your child was diagnosed with a disease that had no cure?

What would you do if your child had only 5 to 10 years to live?

Well it has happened to our friends and here's what we are doing!!!

Please help us with this special fundraiser! One of our former employees and friend, Meredith Maki and her husband Bob have an wonderful family with two boys and a brand new baby brother!

4 yr. old Graeme has a terminal illness, Leukodystrophy, affecting the white matter of his brain, and has acute hearing loss. One day not long ago, Graeme being the investigative active boy he is, took out his hearing aides and opened his front door and got down the street out of range before his mom and older brother could catch up with him. Running after him; shouting, and shouting, you can only imagine his mother's worst thoughts! They got to Graeme in time, but wanted to make sure this never happened again. Hence, Walle the service dog! Walle is a lovely Labradoodle selected for his temperament, has developed a great relationship with Graeme; he just needs a little more training, and believe me, the training is expensive! We have donated PALMETTO BREEZE for a Charleston Harbor Sail to help raise money for Walle's training, so adorable Graeme can safely enjoy the time he has with his family to its fullest! Just \$40 per person gives you the opportunity to help this wonderful family, sail the harbor and enjoy complimentary appetizers, bottled water & soft drinks with a cash bar while aboard PALMETTO BREEZE for 2 hours sailing through the Charleston Harbor.
